The Student Council Symposium is a forum for students and young researchers in the field of computational biology. Participants will have the opportunity to present their work to an international audience, build a network within the computational biology community and develop important soft skills in an environment that fosters exchange of ideas and knowledge.

***Submit until June 8th!***

We are looking forward to reviewing your abstracts from *any area of computational biology*. All accepted abstracts will be presented as posters. Outstanding abstracts will be presented orally.
